

Amtec healthcare About us

• Ingenuity • Technical Talent • ROI

INGENUITY: *Founded in 1959, Amtec Human Capital has been providing Technical Talent to a myriad of industries and organizations throughout the USA. Amtec Healthcare, a subsidiary of Amtec Human Capital is a leading provider of both professional services and technical talent to the healthcare industry nationwide. Since 1999, we have been serving hospitals, healthcare systems, managed care, and insurance companies with our extensive resources. We are specifically focused on Healthcare Information Management Systems and understand the specific issues and business challenges facing the healthcare industry. Our service offerings are for complete turnkey solutions or we can provide your organization key staff to augment your team to help you achieve your implementation, conversion and upgrade initiatives.*

TECHNICAL TALENT: *Amtec Healthcare has an established network of highly experienced healthcare IS professionals throughout the United States. The positions we support include Programmer Analysts, Systems Analysts, Project Managers, Implementation Specialists, Interface Specialists, and Business Systems Analysts, Application Support Analysts, QA Analysts, and many others.*

ROI: *Founded by industry experts, Amtec Healthcare partners with you to bring the Talent required to execute your IT Healthcare initiatives on time and on budget. The result is successful projects delivering the efficiencies you need and the Return On Investment you expect.*
