

# information technology

## Consider it done.

*In today's organizations, information technology is no longer an isolated department responsible for a few select tasks. The backbone of your company, IT plays an integral and integrated role across your entire enterprise and operation. From network security to systems integration, information systems to ERP, and web-based applications to help desk and customer support, mission-critical technology initiatives represent a significant opportunity for change and growth. IT also presents a significant challenge, especially when it comes to finding the qualified information technology professionals to reach your objectives.*

### ***Ensuring the success of your IT initiatives.***

Amtec's Contract IT Division is dedicated to helping you resolve those challenges and leverage your information technology to manage change and capture opportunities. With in-depth experience across multiple technology disciplines and an impressive tenure in recruitment, our IT talent experts will locate, identify and deliver precisely the professionals you need to successfully develop, launch, manage and test your IT initiatives.

### ***Beyond simply searching key words and job titles, our talent experts:***

- **Adapt to Your Needs**

Our IT talent experts search diligently to find technology professionals who conform to the needs of your IT project, so you don't have to compromise with a candidate who doesn't quite meet your requirements.

- **Augment Your IT Workforce**

We'll identify and locate those hard-to-find IT professionals with specialized skill sets and specific knowledge of your industry to fill any gaps in your current workforce. From CIO-level executives to help desk PC technicians, our candidates cross a spectrum of expertise and competencies.

# Consider it done.

- **Pinpoint Your Requirements**

Our recruiters take the time to understand and precisely define the competencies you require, pinpointing your needs down to the phase of the project. This ensures our candidates will support your project's success more effectively.

- **Conserve Your Resources**

By carefully identifying a selection of top-qualified professionals who meet your exact requirements, our recruiters save you countless hours wading through hundreds of under-qualified resumes and interviewing dozens of candidates.

- **Respond Quickly And Efficiently**

We have the resources, talent pool and expertise to identify and present the professionals you need, right when you need them.

## **Provide Flexible Solutions**

Regardless of scope, duration or technical focus, our IT talent experts will deliver on your project needs with flexible solutions. We'll locate qualified candidates to work after hours and on weekends to implement a project with minimal disruption to your operation. We will also locate mobile candidates comfortable with traveling between locations.

## **Map The Best Professionals**

Our Human Capital Mapping™ process employs the industry's most thorough and accurate methodology for defining your requirements, qualifying and profiling professionals who meet them, and quickly ramping up candidates for faster time-to-productivity. This comprehensive process has resulted in one of the industry's highest interview-to-hire (I2H) ratios.

## **Complement Your Culture**

More than qualifying technical competencies, we qualify the candidate's character and values to ensure the best match with your company's culture and project team. This further ensures the success of the project. Our candidates also come with strong references from previous technical managers.

## **Share Knowledge**

We are committed to ensuring the continued success of your IT initiative once the candidate's role is complete. The professionals we deliver share their expertise, provide thorough documentation, and leave your staff with more knowledge than before.

## **Maintain Communication**

Our IT recruiting team maintains ongoing contact with the professionals we deliver, as well as the companies we serve, to ensure that our candidates remain aligned with the project's objectives.

## **Reflect Honest Rates**

The rates we offer represent true industry rates, and not inflated trend rates or an underestimation of the talent required to get the job done right.

When you need IT done — on time, on budget and with successful results — contact Amtec's Contract IT Division. Discover the Amtec advantage for your next information technology project.
